Numb. 1291

The London Gazette.

Published by Authority.

From Monday April 1. to Thursday April 4. 1678.

Swanzey, March 28.

THE Veſſel, which in my laſt was ſaid to be a *Dane*, forced into this Road, proves a *Hamburgher*, ſhe is called the *St. Michael*, laden with *Malaga* Wines, Fruit, and Oyl, bound home; the Captain reports, he came out with 30 Sail of *Engliſh* Merchantmen, under the Convoy of Sir *John Ernley*. On Thurſday laſt the *Elizabeth* of *London*, of 100 Tuns, was caſt away near this place; ſhe was bound homewards from *Alicant*, all the Men ſaved except one.

Plymouth, March 29. This day came into this Port a *Hollands* Man of War, and a Merchantman, being bound for *Cadiz*, but forced back by the late bad weather.

Portſmouth, March 31. On Thurſday in the afternoon ſet Sail from *Spithead* the *Defiance*, Sir *John Ernley* Commander, as alſo the *Centurion* for *Tangier*, on whom embarked the Earl of *Inchequine*, His Majeſties Governor there, having ſeveral Merchantmen under their Convoy.

Ditto, April 2. On the 31 paſt, 18 Sail of *Dutch* Merchantmen, under the Convoy of one Man of War of 44 Guns, paſſed by the *Iſle of Wight*, bound for *Cadiz*. The ſame day a ſmall Veſſel arrived in *Cows Road* from *Dunkirk*, the Maſter whereof reports, that there was an Embargo laid upon all Ships; but the Maſter of another Veſſel from *Havre de Grace*, from whence he came the 30th paſt, ſays, there was likewiſe an Embargo, but only upon *French* Ships, and that all Foreigners paſs freely. The Maſter adds, that there were 40 Veſſels ready to ſail for *Newfoundland*.

Madrid, March 22. The Duke of *Montalto* is hourly expected here from *Flanders*; and the Marquis *d'Oſſera*, late General of the Artillery in thoſe Provinces, is made Governor of *St. Sebaſtian*, and in his place *Don Franciſco Marcos de Velaſco* is made General of the Artillery in *Flanders*. The Dutcheſs *d'Oſſuna* is brought to Bed of a Son, to the infinite joy of that Family. We are told that a Fond of three or four Millions is providing here, for the ſupplying the Governor of *Flanders* with ſuch Sums as may enable him to pay the Arrears of the Subſidies due to ſeveral of the Confederate Princes, and to enable him to put himſelf in a good poſture. On the 20th paſt happened an unlucky Accident in the Bay of *Tangier*; the *Chatham* Sloop, that attended on that Gariſon, having received 36 *Moors* on Board, to carry them to *Cadiz* to be ſold, and the Commander being gone aſhore to receive the Governors Orders, the *Moors* took the opportunity to fall upon the *Engliſh*, of whom they killed ſeveral, and run the Sloop on ſhore; but it blowing extreme hard, only 15 of the *Moors* eſcaped, the reſt being killed and drowned: eight of the Sloops Company were likewiſe carried aſhore, of which two made their eſcape, and got to *Tangier*.

Vienna, March 24. The Duke of *Lorrain* is at preſent with the Queen of *Poland* at *Inſprucke*, from whence his Highneſs intended to part in a day or two to the Army, which is appointed to Rendezvous the 15 of the next month near *Francfort*. This day the Count *Dietrichſteyn*, the Emperors Chamberlain, is gone hence for *Inſprucke*, to inveſt his Highneſs with the Order of the *Golden Fleece*, which the King of *Spain* preſents him with. The Council of War is held very frequently, at which the Emperor, for the moſt part, aſſiſts in Perſon, to concert the operations of the approaching Campagne, which will however be in great meaſure left to the Duke of *Lorrain*, to take his meaſures according to thoſe various accidents and circumſtances of things which may happen; but this is ſaid, as a thing certain, that it is reſolved, that the firſt work ſhall be to beſiege *Friburg*, but whither the whole Army, or only part of it will be employed therein, is not yet certainly ſaid. What was ſpoken of the Emperors having pardoned the Sieur *Schultz*, late Governor of *Friburg*, proves a miſtake; for on the contrary we are aſſured, that his Proceſs has been made at *Inſprucke*, and that it hath been ſent hither to have the Emperors confirmation.

Ditto, March 27. Two dayes ſince arrived here a Courier from the *Rhine*, upon which the Council of War hath been ſince frequently aſſembled, and we are aſſured that ſeveral important Reſolutions have been taken: And yeſterday an Expreſs was ſent away to the Duke of *Lorrain*, to carry him, among other Orders, that, for his haſtening to the Army. The Rebels in *Hungary* have not of late attempted any thing, and we have good ground to believe, that they will not be able to form any conſiderable Body this whole Summer, eſpecially if the King of *Poland* renew his Orders for the calling home all his Subjects, that are at preſent among them, as it is expected he will.

Hamburgh, April 5. The *Munſter* Troops which paſſed the laſt year into the ſervice of the King of *Denmark*, under the command of Major General *Granvilliers*, are coming back, being reduced from 4000 to 7 or 800. On Wedneſday next they will paſs the *Elve* at *Blackenes*, and ſo march home. At the ſame time there is a Report, that their room in the *Daniſh* ſervice will be ſupplied by 6000 freſh men, who, it's ſaid, are on their march, but without any certainty. We are told that a Magazine is preparing at *Domitz*, for the uſe of the *Lunenburg* Troops, who are marching 10000 ſtrong towards *Pomeren*, to aſſiſt the Elector of *Brandenburg* againſt the *Suedes*. Count *Coningſmarke*, as we are informed, loſt a great many men in his laſt Expedition, by Deſertion, moſt of thoſe, who after the Action at *Rugen* had taken ſervice with the *Suedes*, having taken the opportunity of this march to run away. Certain Veſſels arrived at *Lubeck* from *Sueden*, bring news, that the *Swediſh* Fleet was in great forwardneſs; and that 10 Men of War were already put to Sea, bound for *Riga*, to Tranſport, as is believed, Men from thence to *Pomeren*.
